

Electrical Power & Industrial Cables

Eagle providing industry recognized standard and custom-built cable types up to 500KV with section area from 2500mm² as well as H.V accessories such as outdoor terminal, indoor terminal and prefabricated joint etc. We cover many applications across a wide market range. Its products cover low voltage power cable, medium voltage power cable, extra high voltage power cable, submarine cable, control cable, instrumentation cable, building wire, flexible rubber cable, fire rated cable, renewable cable, solar cable, industrial cable, etc.

Product Quality Standard
BS EN60702
BS5467
BS6622
IEC 60227
IEC 60245
IEC 60502
IEC 60811
IEC 60332
IEC 60331
IEC 61034
IEC 60754

BS6724 Armoured Cable

Multi-Core, Zero Halogen, Low Smoke Armoured Cable

BS6724 is armoured power cable for industrial wiring and mains distribution where thick black smoke and acid gas emission would pose a major hazard during a fire.

BS5467 Armoured Cable

Low Voltage Armoured Cable

BS5467 is the low voltage armoured cable for industrial wiring and mains distribution.

BS7889 Power Cable

Industrial Single Core Power Cable

Unarmoured industrial single core wiring cable with cross linked PVC insulation and PVC sheath.

Flat Twin Cable

PVC insulated and PVC Sheathed Flat Twin Cores Cable

Two core, solid or stranded plain annealed copper conductor, PVC insulated with cores laid parallel and PVC sheathed flat twin cables.

Surface Power Cable

PVC Insulated and PVC sheathed Flat Twin Cables with bare CPC

Two core, solid or stranded plain annealed copper conductor, PVC insulated with cores laid parallel and PVC sheathed flat twin cables with CPC in centre (In short form : 2/C Cu/PVC/PVC+ CPC)

Three Core Flexible Cable

PVC Insulated and PVC Sheathed Three Core Flexible Cable

Three core, flexible plain annealed copper conductor, PVC insulated with cores laid up and PVC sheathed circular flexible cords. (In short form : 3/C Cu/PVC/PVC)

Heavy Duty Power Cable

Flexible Conductor and Rubber Insulated Rubber Sheath Power Cable

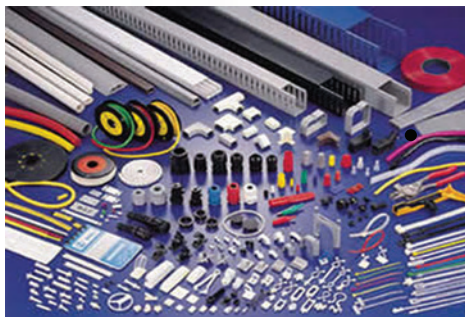

Designed to provide high flexibility and have the capacity to withstand weather, oils/greases, mechanical and thermal stresses.

Mineral Insulated Cable

Flexible Mineral Insulated Fire Resistant Cable

A specialized type of cable used in high temperatures or harsh environmental condition.

Wiring Accessories

We offers the wiring accessories which is essential items installed across domestic and commercial premises, used in both retrofit jobs and new installations. There's an enormous range that encompasses all types of wiring components including front plates and accessories to accommodate. Various colour options and finishes are available.

Cable Trunking, Tray, Ladder & Basket

We offers the widest ranges of cable trunking/tray/ladder/basket solutions available in the market today. With unmatched quality and service, we offer a variety of styles, materials and finishes available to support virtually any commercial and industrial cable management application requirement.

Conduit & Accessories

We offers only as reliable as its conductors and conduit systems & fittings which provide unsurpassed protection for wire and cables in the most demanding applications: power generation, robotics, food processing, refining, waste water treatment, rail rolling stock & trackside, infrastructure, offshore drilling, mining, wind turbines, solar panels, off-road vehicles and many more.
